

A bar chart showing the distribution of 1000 simulated values. The x-axis represents values from -10 to 10, and the y-axis represents frequency from 0 to 100. Red bars represent positive values, and blue bars represent negative values. The distribution is roughly symmetric and bell-shaped, centered around 0.

A horizontal number line with arrows at both ends. Major tick marks are labeled at intervals of 20: -120, -100, -80, -60, -40, -20, 0, 20, and 40.
